

FW24-25 LINE SHEET

SHIELD

The 'Shield' line for women is a part of the collection that merges strength and comfort, designed to evoke the image of an impenetrable yet welcoming shield.

The distinctive pieces of this line include:

Jacket: Characterized by bands on the sleeves reminiscent of armor. The double-breasted closure with a sash accentuates the sense of impenetrability, creating a strong and decisive look.

Pants: Equipped with a side panel that calls to mind the shape of a shield, further reinforcing the image of strength and protection.

Shield Coat: This item is designed to be an essential outerwear piece, versatile and easily paired with any outfit, combining the line's characteristics of strength and comfort.

TWEED

The “Tweed” line represents an intriguing fusion of the characteristics of the “Shield” and “Armor” lines, with a particular emphasis on the elegance of the fabric.

This line stands out for its focus on tweed fabric, known for its texture and ability to convey a sense of comfort and warmth. Here are the main pieces of the “Tweed” Line:

Short Jacket: A versatile piece that combines the practicality of a short jacket with the sophistication of tweed fabric. It is ideal for a casual yet sophisticated look.

Asymmetrical Double-Breasted Blazer: This piece merges a classic cut with a touch of modernity thanks to its asymmetry. The double-breasted design emphasizes shape and structure, making it perfect for formal occasions or an office look.

Mini Skirt: The tweed mini skirt is a reinvented classic, combining the tradition of the fabric with a contemporary cut, suitable for both informal occasions and more formal events.

ARMOR

The “Armor” line for women is designed to evoke the strength and security of armor, offering a powerful and decisive look. Compared to the “Shield” line, “Armor” stands out for its use of stiffer fabrics and a closer fit that accentuates the body’s contours, akin to how armor conforms to a warrior’s figure.

All the pieces of the “Armor” line are made from the same fabric, allowing them to be matched in a single color for a monochromatic look, or broken up with other hues to create contrasts and bolder looks.

Here are the main pieces of this line:

Asymmetrical Double-Breasted Blazer: This piece is a key item of the line, featuring bands on the sleeves that add a distinctive and modern touch. The asymmetry of the blazer brings a unique design element, making it suitable for both formal and casual settings.

Trousers and Mini Skirt: These items are designed to be easily paired with the jacket. The option to match trousers (palazzo, cigarette) or mini skirt offers flexibility and allows for the creation of different looks based on the occasion or personal preference.

**WINGS &
PHONEIX**

The “Wings” and “Phoenix” lines have been created with elegant occasions in mind, focusing on designs that evoke strength and freedom.

Both lines share distinctive features, such as winglets on the sleeve head and pleats on the hips, in addition to being made from the same fabric. Here is a detailed overview of these lines:

“Wings” Line

Tank Top with Soft Neckline: This piece features winglets instead of sleeves, giving it a unique and fluid look. It is designed to be easily paired with items from the “Armor” and “Tweed” lines, offering versatility.

Asymmetrical Short Dress: Characterized by both the winglets and the pleats on the side, this dress combines elegance with innovative design, making it perfect for special events.

“Phoenix” Line

High-Waisted Asymmetrical Skirt: With its elegant pleats, this skirt is extremely versatile, suitable for creating diversified looks, from the most formal to more casual-chic.

Asymmetrical Long Dress: This dress features a unique neckline cut and is enriched with pleats on one side. It symbolizes rebirth, as the name “Phoenix” suggests, and is a key element of the “REBORN” collection.

The “Phoenix” dress embodies the concept of rebirth, inspired by the phoenix rising from its ashes. This piece represents not just a must-have of the collection but also its spirit: transformation and renewal.

UNISEX

The 'Unisex' line has been designed to be worn by all genders, reflecting an inclusive approach to fashion.

This line offers versatile pieces that can be integrated into a variety of personal styles.

Currently, the line features two main garments:

'Armor Unisex' Blazer: This oversized garment is characterized by a pronounced lapel and bands on the sleeves, adding strength and character. Its construction utilizes the same fabrics as the 'Shield' line for men and women, allowing for easy pairing with other items from these lines.

'Shield Unisex' Trench: This oversized trench coat stands out for its distinctive details that make it unique and recognizable. It's an outerwear piece that combines functionality and style.

The 'Unisex' line promises to expand in the future, offering pieces that continue to blur gender boundaries, giving everyone the freedom to express themselves through fashion.

MAN SHIELD

Our men's "Shield" Line is designed to project an image of strength and impenetrability, akin to that of a shield, while still maintaining a high level of comfort.

The robustness is emphasized by pronounced lapels, which impart a decisive and authoritative appearance.

As for comfort, it is reflected in the carefully tailored fit and the fluidity of the fabrics, which provide a sensation of warmth and softness upon skin contact, ensuring well-being and practicality in wearing each garment.
